commissioning
& guidance

To ensure customers achieve the best results from their new equipment, Maidaid® respectfully request the notes below are read for guidance.

Getting the equipment set correctly for the environment in which it will be operated is vital. All products sold by Maidaid® should not be considered as plug and play.

All warewashing machines will require chemical dosing to be set correctly. Machines cannot be supplied ready adjusted to cope with the different concentrations of chemicals and different water quality in order to deal efficiently with the variety of items they have to wash.

Early staff training is highly recommended to achieve maximum productivity from staff and equipment.

Please ensure that you have ordered sufficient product racks to avoid problems in implementing the new equipment. Contact Maidaid® to ensure you are selecting the correct package for your requirements.
